Registration

In order to access information (blogs, demos of Aptify’s products, marketing materials etc.) on this website, a user may be required to register with Aptify. During registration a user is required to give certain information (such as name, email address, job title). This information is used to contact you about the products/services on our site in which you have expressed interest.

Orders

We request information from you on our order form. To buy from us, you must provide contact information (like name and shipping address) and financial information (like credit card number, expiration date). This information is used for billing purposes and to fill your orders. If we have trouble processing an order, we'll use this information to contact you.

Sharing

We use an outside shipping company to ship orders, and a credit card processing company to bill users for goods and services. These companies do not retain, share, store or use personally identifiable information for any secondary purposes beyond filling your order.

We partner with third parties to provide specific services. When the user signs up for these services, we will share names, or other contact information that is necessary for the third party to provide these services. These parties are not allowed to use personally identifiable information except for the purpose of providing these services.

Security

We take precautions to protect your information. When you submit sensitive information via the websites, your information is protected both online and offline.

Wherever we collect sensitive information (such as credit card data), that information is encrypted and transmitted to us in a secure way. Aptify transmits customer credit card information through a third party payment processor to its third party bank to process and complete credit card transactions. These third parties transmit and store the personal and financial information provided by customers for credit card transactions through secure systems with security technology, encryption and firewall protection. Please note that these vendors have their own privacy policies, and although Aptify's agreement with them does not allow the other transacting party to use this information for anything other than providing payment services, Aptify is not responsible for their actions, including their information protection practices.

You may prevent having Aptify use, transmit or share your personal and financial information for credit card transactions by not providing the information for this purpose and choosing another payment method. By providing this information for credit card transactions, you are consenting to its use in this manner for this purpose. While we use encryption to protect sensitive information transmitted online, we also protect your information offline. Only employees who need the information to perform a specific job (e.g. billing or customer service) are granted access to personally identifiable information. The computers/servers on which we store personally identifiable information are kept in a secure environment.
